Headline: NEW—Advanced Quality & Compliance—FREE

Body text (150 words)

On your plant floor, your job is to make sure products are in spec, in compliance—and right the first time.

If it's been a while since you updated your existing ProFicient™ on-premises software, you may not have access to the answers you need to meet all those demands.

InfinityQS® can help. Our [cloud-based quality platform, Enact®](#), provides the advanced features you need to improve quality and compliance—and keep production humming.

Best of all, getting started is FREE.

[Unlock Your Plant-floor Data—Free](#)

Enact makes plant-floor data actionable in real time—so you can solve your critical production problems fast. With a [FREE Enact subscription](#), you'll experience:

- Simpler data collection
- Streamlined compliance
- Smarter analytics

Guided Learning and Online Help enable you to start right away—and quickly realize the benefits of digital data in your production processes.

Simplify compliance, fix quality issues, and keep production humming.

Headline: Risk Free: Move to Next-gen Quality & Compliance

Body text (150 words)

Sticking with what works makes sense—until it doesn't.

[Updating your ProFicient™ system](#) and moving to a cloud-based digital data collection and quality platform may already be on your to-do list. But the challenges of switching platforms—cost, downtime, training—means you might never take the next step.

[Solve Plant-floor Problems—with a Free Enact® Subscription](#)

With your [free Enact subscription](#), you can get started in 4 easy steps:

1. **Easily configure** via a Quick Setup wizard
2. **Collect data** using intuitive entry screens
3. **Create reports** to instantly get valuable insights
4. **Optimize and share** your results

It's that easy.

Take 4 steps to simpler data collection, smarter compliance—and “right-first-time” quality.
